YARMOUTH & ACADIAN SHORES
Be spellbound by seafaring storytellers and joie-de-vivre.

Raw beauty, heart-warming joie-de-vivre, and a spirit driven by the sea encapsulate daily life in Yarmouth & Acadian Shores.

Located within the UNESCO Southwest Nova Biosphere Reserve, this region offers scenic coastal drives, quaint fishing villages, untouched landscapes, and stunning stargazing, becoming the first destination in North America to receive a Starlight designation from the Starlight Foundation.

Traditions, music, and food have been more than preserved here—they flourish. Pick up a phrase from our Acadian patois (dialect), check out Musique de la Baie, or admire hundreds of grand sea captains’ homes from years gone by. We love our culture, and invite you to celebrate with us.

Les fruits de mer (seafood) have long shaped our region’s cuisine. Want to dig a little deeper? Go clamming in Baie Sainte-Marie, or tour the lobster pound and stay for dinner at Stanley Lobster Co. in Yarmouth. Indulge in lobster poutine at Dennis Point Café, or learn real-life fishing skills from our seafarers at “Living Wharves.” There’s always something fresh on your journey!

Did You Know?

Acadians are descendants of French settlers who arrived in Nova Scotia in the early 1600s. Acadians have maintained their culture, and they love sharing this with visitors. Jump into the joie de vivre by sampling Rappie Pie, practicing your French with the locals, and learning how invigorating a “bon tyme” can really be. For more information, visit yarmouthandacadianshores.com/region/acadian-warmth.

Your New Favourite Songs

Music is a cornerstone of our local culture. In fact, Acadians have their own special word for this—a good party with lots of music is referred to as a “tyme”. Look for the Musique de la Baie (Music by the Sea) logo throughout the area and discover the lively music and folklore of this region. Performances are nightly from July 1 to September 30; the schedule repeats weekly. For performance dates and times, visit yasmusicbythesea.com.

**Unexpected Discoveries**

**Trout Point Lodge Stargazing**

**East Kemptville**

Look to the skies during a guided stargazing adventure. Learn about our solar system, universe and galaxy at a place where the sky is still actually dark at night. The Lodge has been recognized as one of the best places in North America for astronomical observation and received certification as the world’s first starlight hotel from the Starlight Foundation in 2014. The views are breathtaking and can include amazing meteor showers and the aurora borealis. The Lodge’s 10” telescope brings heavenly bodies into even greater clarity (see page 130).

**Sandford Drawbridge**

**Ross Durkee Road, Sandford**

The smallest drawbridge in the world, located at the Sandford Wharf, was built so that the fishermen and visitors could cross from one side of the Sandford wharf system to the other without having to travel back on the road.

**Echo Circle**

**Frost Park, downtown Yarmouth**

Look for a small disc in the very middle of the viewing platform that overlooks Yarmouth Harbour. If you stand directly on the disc, your voice will echo. Move a step away and the echo will be lost.

**Comeau’s Hill Beach**

**Very end of Melbourne Road, off Route 334 in Arcadia**

On the Atlantic Ocean and adjacent to the Tusket Islands, this small and secluded beach is one of the few places to see the island chain from land.

**Cape St. Mary’s Cliffs**

**Cape Saint Mary Road, Cape Saint Mary**

Stunning cliffs and a romantic lighthouse overlook St. Mary’s Bay near Mavillette Beach. These cliffs were formed by the sea over a million years ago and are a great place to watch the sunset.
